

TRlstat™

PHENOXYETHANOL-BASED PRESERVATIVE SOLUTIONS

**BROAD
SPECTRUM
PRESERVATION**
for leave-on and
rinse-off formulations

TRlstat™ Technology

- MAXIMUM PH FLEXIBILITY
- LIQUID, EASY TO USE
- DUAL FUNCTION: PRESERVATION AND MOISTURIZATION
- CUTTING EDGE ALTERNATIVE TO CONTROVERSIAL PRESERVATIVES
- COST-EFFECTIVE

TRlstat™ Overview

INGREDIENT SOLUTIONS

As one of the **top global producers of Phenoxyethanol**, we are your supplier of choice for popular phenoxyethanol-based blends

Using our **US production facility**, we are able to reduce material lead times

TRI-K's TRlstat™ phenoxyethanol blends are modern preservatives that provide **multiple benefits to finished products**

Broad-spectrum antimicrobial blends are active across a wide pH range, making them suitable for most personal care applications

These preservatives are stand-alone and **do not affect the color or odor** of the product

The blends are **cold processable** and **easy to formulate** with most commonly used personal care ingredients
